

# Full Stack Developer

Software Engineer/ Bachelor's/ Tech Enthusiast/ Problem Solving

Driven technologist focused on growth, collaboration, and purposeful innovation, building impactful digital solutions through code, design, and organization.

Java Angular React AWS PostgreSQL

## Hey! I Am Henok Zeleke

A passionate Software Engineer with a Bachelor's degree in Software Engineering who loves blending technology, creativity, and purpose. I enjoy turning ideas into intuitive digital solutions and exploring how design and innovation can create real impact.

I'm deeply driven by growth, leadership, and continuous learning, with strong interests in AI, cloud computing, and entrepreneurship. Beyond my personal goals, I also dedicate time to volunteer projects, helping communities and organizations build their digital presence and grow through technology.
